

CHANGE ISLANDS

Community map based on existing topographic information and the geographic knowledge of local residents.
Second edition, July 2010

Principle Investigators:
Dr. Derek A. Smith, Department of Geography and Environmental Studies, Carleton University
Dr. Maureen Woodrow, Telfer School of Management, University of Ottawa
Dr. Kelly Volden, Department of Geography, Memorial University

We wish to thank the many residents of Change Islands who participated in the creation of this map, for letting us into their homes and sharing their knowledge and stories. The research was made possible with support from the Government of Newfoundland and Labrador (Department of Fisheries and Aquaculture, Department of Environment and Conservation, Department of Tourism, Culture and Recreation), the Ocean Management Research Network, the Town of Change Islands, Slopes and Stores Heritage Foundation and the Social Sciences and Humanities Research Council.

Coordinate system - UTM zone 21, datum NAD 1983

Sources: National Topographic Data Base digital vector data (1:50,000); local geographic knowledge of the residents of Change Islands collected through "kitchen table mapping" and other meetings and interviews; and field verification with local experts using GPS. Please note that many additional named islands, shoals, and other features used by the residents of Change Islands are not included within the boundaries of this map, and that named fishing spots have not been included.

Legend

- elevation contour (50 feet)
- rock ledge, shoal
- rock, shoal, or navigational hazard
- leading light, navigational aid
- wharf
- school
- church
- cemetery
- well
- paved road
- trail
- causeway
- bar, rock causeway
- helicopter pad
